

Adam Biro 087-766-0561**PHP & WEB** adam.biro@gmail.com
 github.com/biroa**Developer** Ireland**Full-Stack Developer**www.portwest.com

09.06.2021-present

Remote - Hungary

Portwest.com is a global manufacturer and innovator of workwear, safety wear and PPE. Established in 1904. At the moment I work here as a Full-Stack developer. My responsibilities include bug fixing, implement new applications. Configure Linux sandbox environments. Time-to-time I have been acted the part of a Scrum Master.

Projects and Tasks**Screen Printing Application**

This app communicates with the portwest.com site. It provides garment personalization in the web shop buying process in a different domain. After the personalization, the payment information is provided through REST API to the portwest.com web shop while sending a new order ticket into the Teamwork DESK system through REST API for the warehouse managers Teamwork DESK API.

Laravel 8, JavaScript, MySQL, REST API, AWS, REDIS, GIT

Software Developer**Sigma Technology Hungary**www.sigmatechnology.se

01.01.2021-09.06.2021

Budapest - Hungary

Sigma Technology is a global supplier of product information, embedded solutions, and offshore development. I worked here as a Front-End developer. Time-to-time I have been acted the part of a Scrum Master.

Projects and Tasks**Ericsson Investment Handler**

Debugging and implementing new functionalities. Angular 8.0, EDS toolkit, Less, GIT, Jenkins, JIRA, Confluence, Kanban.

PHP Developer**Outbrain Enterprises Ltd**www.softics.com / www.fbs.com

01.12.2019 - 30.06.2020

Dublin - Ireland

Outbrain Enterprises Ltd is a subsidiary of the Online Forex Broker FBS. I worked on the FBS CRM and CMS system using PHP 7.2, YII2 Framework, PostgreSQL, MySQL, Docker, Redis, GitLab, Bitbucket, Jira, Confluence, configured deploy system in GitLab.

Projects and Tasks**FBS CRM, FBS CMS**

Modifying and updating existing functionalities. Implementing new features based on new criteria. Profiling and improving the application. Detecting and optimizing slow queries. Caching application level and query levels using the YII2 Framework APCU implementation. Implementing the front-end functionalities of the backend changes with jQuery and JavaScript.

Web developer**Self-Employed**

2017 - 2019

Hungary

I worked for different companies in several projects.

Projects and Tasks**Praxys**

Implementing new features into the Praxys which is an Online Management System for lawyers. The owner of the system is Wolters Kluwer. (Symfony 2.8, MongoDB, Angular 1.6)

Jacobs Media Group portfolio maintenance	Fixing issues of Europe's largest Travel & Hospitality B2B media company portfolio: Angular 2, different versions of Symfony and Laravel Frameworks and MySQL
Developing an HTML5 game	Yii2 Framework, HTML5, jQuery 3.2

Senior developer **2014 - 2017**
Net Affinity LTD. **Dublin - Ireland**
www.netaffinity.com

In the first half year, I worked on a Perl based Booking Engine (BKE). It used Perl with Mason framework and PostgreSQL. It provided a booking interface for guests in the CMS based sites for hotels. In 06.2014 I joined to the development of the new Eco-System project which is hosted in AWS. The goal of the project to rewrite the old systems as BKE, CMS, etc. I used Laravel and MySQL for the backend and AngularJS for the frontend with Bitbucket (Git) and JIRA. I worked on the backend and the frontend as well. My tasks were writing models, controllers, API tests and planning the optimal core functionalities for the frontend. Write widget functionalities.

Projects and Tasks

New discounts	developing different discounts based on new formulas in the BKE (Perl, Mason, PostgreSQL)
Models, Controllers, API tests	Laravel 5.0, MySQL
Developing Batch API functionality	Writing the Batch API functionality for the backend and the frontend too to decrease parallel API calls. Laravel 5.0, MySQL, AngularJS
Developing frontend widgets	AngularJS 1.6

Web developer **2010 - 2013**
Ringier Publishing Company **Budapest - Hungary**
www.ringieraxelspringer.hu

Developing different requirements by papers brand. I received the design elements in Photoshop then I created the front-end and the back-end codes as well. I used HTML, CSS, jQuery, Ajax, JavaScript for front-ends, and PHP OOP, MySQL for back-ends. I was developing new CMS modules for NETRIX CMS, because the editors of these brands used this CMS to create a new content for their on-line surface. Ringier has been using this CMS for years in Hungary.

Projects and Tasks

Developing Msn Mai Nap	Daily average visitors in a month: 150.000-200.000 It works as mainap.hu since 11.01.2012. Before that it worked as a Microsoft branded site, the Hungarian version of msn.com.
Developing Nemzeti Sport	Daily average visitors in a month: 331.000
Developing Blikk	Daily average visitors in a month: 267.000
Developing Neon	Daily average visitors in a month: 32.000
Developing TVMusor	Uses XML based API-s which is provided by Port.hu
Developing Netrix CMS	The sites mentioned above based on Netrix CMS. The CMS core is based on CodeIgniter Framework.

Php developer **2009 - 2010**
Carussel Group **Budapest - Hungary**

As a back-end developer I used PHP based Carussel Framework (MVC) which was an earlier development. I used it with PostgreSQL. I took part in the development of the Opel Trade Customer (OTC) financial system and Chevrolet Trade Club. Developed new backward calculation for dealers which was prescribed by General Motors. Created modules to dealers in order to generate their own reports. Developed new modules for Opel

CMS. This CMS is used by more than fifteen countries e.g. Croatia, Estonia, Lithuania etc. I got in touch with Yii Framework as well because Figyelo CRM based on it. Debugging and bug fixing were among my duties.

Projects and Tasks

Opel CMS	Content Management System of Opel vehicle parts dealers in the Middle European countries.
Iveco	Application for tracking sales.
OTC	OTC (OPEL TRADE CUSTOMER SYSTEM) Financial system set for dealers where they can manage the refund of sold Opel vehicle parts.
Figyelo CRM	Customer relationship management system.

Php developer

2009

Confhotel-Net.Kft

Budapest - Hungary
